Summary

I am a skilled Full-Stack Web Developer with expertise in React.js, Tailwind CSS, and TypeScript. I create responsive, industry-standard web applications delivering elegant user experiences.

Experience

UI Consultant   July 2024 – Present
UIXperts Labs

- **Leading Development:** Leading the development of a centralized platform to manage employee-related tasks, app access, and account administration, with multi-lingual support.
- **Collaboration:** Collaborated with team members to ensure clear project requirements and maintained code quality through pull request reviews.
- **Project Management:** Streamlined project workflow by creating and managing Jira tickets, assigning tasks, and ensuring timely delivery.
- **Technologies:** React, React Router, TypeScript, Tailwind CSS, Shadcn-UI, Jotai, TanStack Table, i18next

Web Developer Intern   Oct 2023 – Mar 2024
Vuclip

- **Led Web Performance Optimization:** Conducted in-depth web performance and Web Vitals analysis, implementing strategic optimizations that significantly improved website speed and user experience. Achieved a remarkable Google Lighthouse score increase from 55% to 75%, ensuring a seamless browsing experience for users.
- **Developed Progressive Web Apps:** Spearheaded the development of Progressive Web Apps, enhancing user engagement and retention
- **Engaged in Continuous Learning and Skill Development:** Demonstrated a commitment to continuous learning and skill development by staying updated with the latest technologies and trends, including Next.js, TypeScript, Redux, and unit testing.

Education

Vishwakarma Institute of Information Technology   June 2020 – June 2024
B. Tech - Computer Engineering – 9.45 CGPA

Personal Projects

Jamaat-Time

- Developed a web app that provides accurate prayer timings for nearby mosques while traveling.
- Integrated Google Maps and Google Places APIs to enhance location accuracy and user convenience, improving accessibility to prayer information.
- GitHub Repository Link.
- Jamaat-Time Web App Link.

Minimalistic TypeScript Express MongoDB Template

- Developed a starter template for building API servers with TypeScript, Express, and MongoDB.
- Features include ESM module support, import aliases, ENV config, CORS setup, custom error handling, and a clean folder structure.
- [GitHub Repository Link](#).

Skills

Programming Languages:
- HTML, CSS, JavaScript, TypeScript, Java, Python.

Frameworks and Libraries:
- Next.js, React, Tailwind CSS, Material-UI, Shadcn-UI, React Router, Redux, Jotai, TanStack Query, TanStack Table, I18next.
- Node.js, Express.
- Jest.

Databases:
- MongoDB, MySQL.

Tools and Technologies:
- Git, GitHub, Jira.

Soft Skills:
- Problem Solving, Leadership, Teamwork, Communication
